WORK EXPERIENCE

SENIOR FRONTEND ENGINEER

2020 - Present

CODY LLC / cody.mn /

Cody has crafted numerous enterprise-level e-commerce applications in Mongolia, notably "shoppy"—the leading e-commerce platform in the country. Striving to continue to refine our system, aiming to establish it as the premier e-commerce solution globally.

LEAD

WEB DEVELOPER

2019 - 2020

SHOPPY LLC / shoppy.com /

The largest ecommerce platform in Mongolia, fully integrated with AWS, IBM Watson, Digital Ocean & Segment technologies

SOFTWARE ENGINEER

2018 - 2019

TAVANBOGD GROUP / tavanbogd.com /

Serving as a software engineer within one of Mongolia's most prominent groups, I played an instrumental role in developing and launching two significant projects: pizzahut.mn and toktok.mn. Pizzahut.mn is Mongolia's largest online pizza delivery platform, while Toktok is akin to Mongolia's version of "Uber Eats."

DIGITAL MARKETER

2017 - 2018

erxes Inc / erxes.io /

Pioneering the future of experiences through XOS (Experience Operating System). erxes serves as an alternative to the combined functionalities of Hubspot (CRM & Marketing automation) and Qualtrics (Experience management) but open-source way.

EDUCATION

BACHELOR DEGREE GRADUATE

2010 - 2014

NATIONAL UNIVERSITY OF MONGOLIA (NUM)

Graduated from the National University of Mongolia (NUM) in 2014 and worked as a research assistant in the Department of Nuclear Engineering until 2016.

To: Dear Hiring Manager,

CEO

From:
Turbold Amar
DEVELOPER

As a dedicated frontend/fullstack developer with a strong focus on modern web technologies, I am actively seeking opportunities to contribute to impactful products while continuing to grow as a developer. With a passion for clean code, intuitive user interfaces, and scalable architecture, I bring both technical expertise and a problem-solving mindset to every project I work on.

Over the years, I've had the opportunity to work on various projects ranging from landing pages to complex, full-featured platforms. I'm well-versed in technologies like React, Next.js, TypeScript, Tailwind CSS, and backend tools such as Node.js, GraphQL, and PostgreSQL. Whether I'm building out performant frontends or integrating robust backend APIs, I focus on creating seamless user experiences that align with real-world business goals.

Beyond writing code, I value thoughtful collaboration, attention to detail, and continuous learning. I enjoy exploring topics like UI/UX best practices, accessibility, and design systems. I've also worked closely with cross-functional teams—designers, PMs, and QA—to deliver features efficiently and reliably in agile environments. I thrive in settings where initiative and communication are appreciated and where curiosity drives the team forward.

If you'd like to see examples of my work, please feel free to visit my portfolio at turbold.me. You'll find a range of projects that reflect both my technical skills and design sensibilities.

I am particularly drawn to environments that encourage ownership, mentorship, and long-term thinking. As someone who is both self-taught and shaped by real-world experience, I bring a unique perspective to teams that value impact over ego. Whether it's solving a tough bug, improving performance, or simplifying a complex flow, I'm always eager to dive in and contribute.

Thank you for taking the time to review my application. I would welcome the opportunity to discuss how my skills and experience align with your team's goals. I look forward to connecting and potentially building great things together.

Yours Sincerely,

A. Turbold

Turbold Amar

Website & Mobile App • 2024

Shoppymn is the largest e-commerce platform in Mongolia, serving thousands of customers daily with a seamless online shopping experience. Built using React, TypeScript, GraphQL, Ruby on Rails, and Tailwind CSS, the platform is optimized for performance, scalability, and maintainability. It features real-time search, dynamic filtering, user-friendly design, and powerful admin tools. This project highlights my ability to work on complex systems and contribute to a high-traffic, production-ready application at scale.

Website & Mobile App • 2021

Zary.mn is a C2C e-commerce platform that connects individual buyers and sellers across Mongolia. Developed with React, TypeScript, GraphQL, Tailwind CSS, and React Native, it offers a seamless experience across both web and mobile. The platform includes features like real-time chat, custom listings, and smart search. Built for flexibility and speed, Zary.mn showcases my ability to develop scalable, user-focused applications that work smoothly on all devices.

ETSA LIN Mobile App • 2023

Etsalin is a mobile app that allows employees to access a portion of their earned salary before payday, based on their tracked work hours and balance. Built using React Native CLI, TypeScript, GraphQL, and Ruby on Rails, the app ensures secure transactions and a smooth user experience. It features real-time balance updates, request history, and flexible payout options. Etsalin highlights my experience building fintech-focused mobile apps with reliable backend integration and intuitive UI.

TURBOLD AMAR

FULL-STACK DEVELOPER

ABOUT ME

Hi, my name is Turbold Amar. I'm a frontend and fullstack developer with a passion for building modern, high-performance web applications. I specialize in technologies like React, Next.js, TypeScript, and Node.js, with a strong focus on clean UI, smooth UX, and scalable architecture. I enjoy crafting elegant, maintainable code and solving real-world problems through thoughtful digital solutions. Whether I'm working on client projects or personal experiments, I'm always curious, detail-oriented, and driven to improve. I'm always excited to turn ideas into well-executed, impactful products.
